

Make Waves with the permaport *Xpress*®

Built with increased length and buoyancy to fit all major brands of PWC's

Can be mounted to all floating and fixed docks\*

\*Corresponding hardware kit available for all standard mounting applications

Sturdy, noise-reducing mounting hardware eliminates metal-to-metal contact

Commercial wheels and rollers can accommodate several different hull designs

Adjustable wheel and axle locations for a custom fit

For residential & commercial use; available in textured granite colors

The Permaport Xpress® measures at 13 1/2 ft. long, 58 in. wide, 14 in. deep

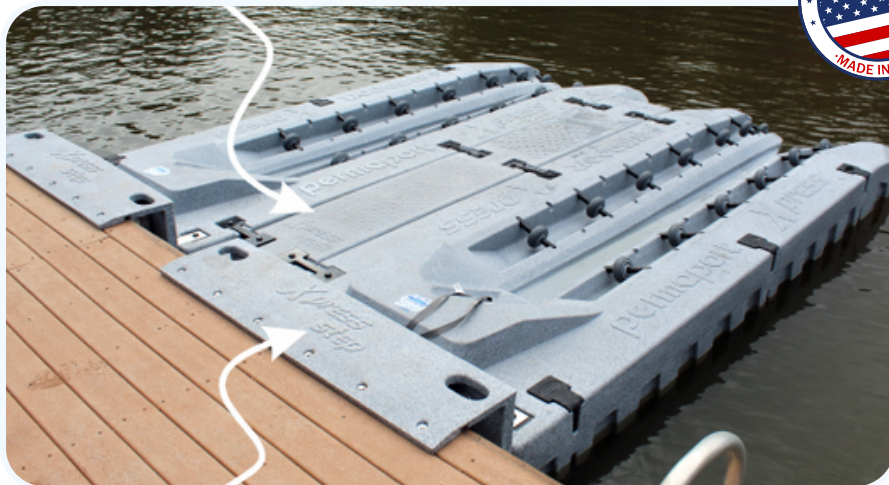

## Pair with the Permaport Xpress® System

- Runs the entire length of the Xpress port, providing an additional 20 inches of walking surface
- Additional walkway provides increased stabilization between multiple PWC ports
- Xpress Step attaches directly on to the PWC dock, increasing comfort
- Both a perfect match to the Xpress color options, elevating the look and feel of your dock
- Manufactured to withstand harsh marine elements
- Mounting Hardware Kit + Joiner Kit available for purchase

### Xpress® Walk

An additional walkway that perfectly complements the Permaport Xpress

### Xpress® Step

A comfortable step that easily attaches to the dock
